

SensThys Technology Makes Healthcare Safer

SensThys Customer HCL and Fresenius Announce Partnership

SensThys congratulates Health Care Logistics® (HCL®) and Fresenius Kabi for their recently announced partnership that makes use of SensThys hardware and EPIC processing enabling customers to use HCL's [Stat Stock®](#) inventory solution with Fresenius Kabi's [+RFID™ smart-labeled medications](#) improving replenishment efficiency and patient safety.

The Solution:

- Cuts replenishment time in half
- Keeps expired medications out of rotation
- Quickly identifies recalled drugs
- Eliminates all possibility of data error
- Standardizes system management
- Fully encrypts data for security
