

SensArray Core

We are proud to introduce our newest reader! The Core has all the performance of our Enterprise product - with integrated antenna, three external antenna ports, and a powered GPIO – but without an integrated PoE switch. For high performance applications that don't require networking readers, this is the solution!

All the performance you need - the **SensArray Core**

- Integrated functionality
- Great performance and value
- **In Stock!**

The same antenna, antenna ports, and GPIO as the Enterprise, but without the Ethernet switching.

Long lead times a drag?

Work with a partner who:

- Planned ahead
- Respects your business needs
- Can ship now

We've got the chips, so you can ship!
