

CEO Note: **Products for the Real World**

A Series of Messages from our CEO... Jo Major

Many talk about listening to customers, fewer really do. We try to be one of the few. Three examples . . .

Handheld Reader: **Automobile Leak Testing.**

- Customers wanted to automate vehicle **production-line leak detection**
- Streamlined **handheld** application running on **iOS or Android.**

- SensThys created ProSens Mobile application – **available now**
- **Visual** system notifies staff of leaks
- Find leaks easily with **Geiger search**
